Profile

Flutter Developer with hands-on experience building scalable, cross-platform mobile applications using Flutter and Dart. Strong background in implementing clean UI from professional Figma designs, managing state with Cubit and Provider, and integrating RESTful APIs and Firebase services. Experienced technical mentor and team lead with a passion for writing maintainable, well-architected code.

Education

Bachelor's Degree in Computers and Information (Computer Science), 2021 – 2025
Faculty of computers and information at Minia University

Professional Experience

Flutter Developer & Technical Head – GDG Minia (Volunteer Team) March 2023 – 2025

- Led the technical team and supervised all Flutter-related activities
- Mentored students in building Flutter applications from scratch
- Delivered sessions on Dart fundamentals, UI/UX principles, and Flutter workflows
- Conducted workshops on Firebase integration, RESTful APIs, and app deployment

Skills

Frameworks & Tools:

Flutter, Firebase, Hive, REST APIs, Payment Integration, Responsive UI Design

Architecture & State Management:

MVVM, Cubit, Provider.

Programming Languages

Dart, C++, Java, c#, HTML, CSS.

Tools/platform:

Git, GitHub, Android Studio, Visual Studio Code.

Soft skills:

Problem-solving, Communication, Teamwork, Leadership, Self-learning.

Projects

Bonify, (Graduation Project) 🌐

A cross-platform mobile application built with Flutter for detecting bone fractures from X-ray images. Supports image upload, displays ML-based diagnostic results, and enables chat between patients and specialists through RESTful API integration.

Lafyuu Ecommerce App, (Ongoing development) 🌐

A Flutter-based cross-platform e-commerce app with product browsing, search, wishlist, and cart features. Built from a professional Figma UI, integrated with RESTful APIs and structured state management.

Talksy- Chat Application [↗](#)

A real-time messaging app built with Flutter and Firebase. Implements Firebase Authentication and Cloud Firestore for secure and efficient message handling.

My Notes [↗](#)

A note-taking mobile application built with Flutter, providing offline access using Hive local storage and Cubit for efficient state management and responsive UI updates.
