

Shahd Mohamed Mohy

Backend .NET Developer

📍 Cairo, Egypt ✉ shahdmohyoo@gmail.com ☎ +201125816383 🌐 Shahd Mohy 🔄 Shahd-Mohy

PROFILE

Backend .NET Developer with a strong foundation in building secure, scalable web applications and RESTful APIs. I enjoy turning complex database requirements into clean, maintainable architecture using ASP.NET Core, EF Core, and SQL Server, applying SOLID principles and Clean Architecture in Agile/Scrum team environments. Proficient in JWT-based authentication and role-based authorization. Actively exploring Generative AI and LLM API integration (OpenAI / Anthropic), and eager to bring that knowledge to a product-focused team building smart, AI-driven backend features.

INTERNSHIPS

Full Stack web & generative AI using .net | Information Technology Institut (ITI)

01/2026 – 06/2026

Intensive Training Program

- Developed scalable web applications using ASP.NET Core, Entity Framework Core, and SQL Server.
- Designed and consumed RESTful APIs with JWT-based authentication and authorization.
- Applied Clean Architecture principles and collaborated within Agile/Scrum teams of 3–6 developers using Git and GitHub.

Projects

SmartTrip — Trip Cost Analyzer | ASP.NET Core MVC · C# · EF Core · SQL Server

Trip cost calculator supporting vehicle and passenger management for groups of up to 10 participants, built using ASP.NET Core MVC, EF Core, and SQL Server. Implemented ASP.NET Identity authentication, SMTP email confirmation, and responsive UI design.

Examination Management System | SQL Server

Designed a relational database for an examination system with randomized exam generation, automated grading, and multi-role workflows. Abstracted data access via stored procedures and views, optimized performance using indexing, and configured automated daily backups.

FREELANCING EXPERIENCE

LegalBridge | .NET MAUI Blazor · EF Core · SQL Server

05/2026

Developed a full-scale legal platform using Clean Architecture with Repository and Unit of Work patterns across 3 core modules. Built case lifecycle tracking, judicial scheduling, and witness management modules, plus a financial engine for fee tracking with PDF reporting.

EDUCATION

Bachelor's degree in computers and information (Computer Science)

10/2021 – 06/2025

Faculty of computers and information at Minia University.

Received an **(A) grade for the graduation project** - BonifyApp

SKILLS

Programming & Core

C#, OOP, Data Structures & Algorithms

Authentication & Security

ASP.NET Identity, JWT Authentication, Role-Based Authorization

Database

SQL Server, Database Design & Normalization

AI & Machine Learning:

Generative AI, Prompt Engineering, LLM API Integration (OpenAI / Anthropic), RAG (Retrieval-Augmented Generation)

Backend Development

ASP.NET Core (MVC, Web API), RESTful API Design, Entity Framework Core (Code First / Database First), LINQ, SOLID Principles

Architecture & Practices

Clean Architecture, Layered Architecture, Mapping, Dependency Injection

Tools & Technologies

Git & GitHub, Visual Studio, Postman, Swagger, Agile / Scrum

COURSES

Flutter development ITI summer training 	2024
Web development ITI summer training 	2023
PHP Development stack summer training 	2022

EXTRACURRICULAR ACTIVITIES

Technical head - GDG Minia •Led a technical team of 30+ members and supervised all technical activities • Develop hard working members in all tech stack • Conducted workshops and study Groups	01/2024 – 09/2025
Flutter Mentor - GDG Minia • Mentored students in building Flutter applications from scratch • Delivered sessions on Dart fundamentals, UI/UX principles, and Flutter workflows	2025 – 2026
Technical Member - GDG Minia	2022 – 2024
